

Dr. Kayode Sakariyah Adewole  
Postdoctoral Researcher  
Department of Computing Science,  
Umeå University, Sweden.

23<sup>rd</sup> November 2022.

Dear Professor,

**RE: APPLICATION FOR POSTDOCTORAL POSITION**

I am presently a postdoctoral researcher at Umea University Sweden working with Prof. Vicenc Torra on Data Privacy project that was supported by Kempe Foundation. This position will be completed by March 2023. In 2018, I completed my Ph.D. program in Network Security at the University of Malaya, Malaysia. I am an excellent qualified candidate for this position. I believe that my experience in publishing quantitative research findings, conducting extensive literature surveys, teaching, and community development over the years would be particularly beneficial to this position.

During my Ph.D program at the University of Malaya, Kuala Lumpur, Malaysia, I served as a Research Assistant on social network security research. In this position, I analyzed a huge amount of data from social networks and data from other repositories, serving as an author on different manuscripts that have been published in top-tier ISI Web of Science and Scopus peer-reviewed journals. Also, I have been involved in teaching, research and community development at the University of Ilorin, Nigeria since 2012. I have won different research grants with my colleagues as listed on my resume. In April 2018, I received a certificate of outstanding contribution in reviewing from Elsevier (one of the leading publishers of high-quality journals). I am an active reviewer for several ISI WoS and Scopus journals.

I am equipped with programming and data analytics skills necessary to develop high-quality novel systems in computing, particularly for traditional machine learning, deep learning and big data environment. Furthermore, I have ample experience working in a collaborative environment and I am confident in using several programming languages including but not limited to C/C++, C#, Python, PHP, and R. I am confident that I will perform excellently if allowed to join your reputable research group. As you can see on my resume, I have experience in conducting independent research and I have attended several conferences and workshops both at home and abroad.

Please do not hesitate to contact me with any questions at +46760776327 or [adewole.ks@gmail.com](mailto:adewole.ks@gmail.com), [kadewole@cs.umu.se](mailto:kadewole@cs.umu.se) or [kayode.adewole@umu.se](mailto:kayode.adewole@umu.se). Thank you very much for your time and consideration, and I look forward to hearing from you soon.

Sincerely,

Kayode Sakariyah Adewole (Ph.D)
